Qs and As

January 2009

Q: What company has been awarded the contract for the J6 A/B MAC workload?

A: Noridian Administrative Services, LLC (NAS) has been awarded the contract for the J6 A/B MAC.

Q: What states are included in A/B MAC J6?

A: J6 is comprised of Illinois, Minnesota and Wisconsin. J6 also includes the home health and hospice workload in Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Michigan, Minnesota, Nevada, New Jersey, New York, Northern Mariana Islands, Oregon, Puerto Rico, U.S. Virgin Islands, Wisconsin and Washington.

Q: What are the major contractual differences of the A/B MACs compared to the current fiscal intermediaries (FIs) and carriers?

A: The claims administration workload for each A/B MAC is being awarded through full and open competition conducted in accordance with the Federal Acquisition Regulation. Based on structured evaluation criteria, the proposal with the best value for the government will be selected in each procurement. The A/B MAC contracts are for the administration of both Medicare Part A and Part B claims in a specific geographic jurisdiction. They allow for performance incentives to be earned by the MAC.

Under the requirements of the original Medicare legislation, the FI and carrier contracts historically have been competed to a limited number of contractors which may or may not have been the best qualified organizations to do the work. In addition, the carriers have had to be chosen from health insurance companies. The contracts for the FIs and carriers do not allow for performance incentives; rather they pay the contractor the costs incurred in conducting their operations.

Q: What is the effect of Medicare Contracting Reform on beneficiaries and providers?

A: Beneficiaries will have a single point-of-contact, connecting them to a seamless operations network for meeting their information needs. A beneficiary's first point of entry for resolution of questions about Medicare coverage will be 1-800-MEDICARE. The A/B MAC will handle only complex inquiries from beneficiaries.

The A/B MAC will serve as the point of contact for providers, physicians and practitioners for all claims-related business. Medicare contracting reform also will benefit providers with improved provider education and training by the A/B MACs.

Q: What type of contract has been awarded for the J6 A/B MAC workload?

A: The J6 A/B MAC was awarded under a cost-plus-award-fee contract. The period of performance for the contract is a base period with four 1-year options. The total value of the contract for the five year period is approximately \$277 million.

Q: Where is the J6 A/B MAC contractor's headquarters? Where will the work actually be performed?

A: NAS operations are headquartered in Fargo, ND. Some operations will also be performed in Grand Forks, ND, Jamestown, ND, Eagan, MN and Milwaukee, WI.

Q: When will the new J6 A/B MAC begin operations?

A: The implementation activities of the A/B MAC that are needed to move the Part A/Part B workload will begin immediately. The MAC will complete the transfer of the claims and information from FIs and carriers and be fully operational no later than January 2010.

Q: What FIs and carriers are currently processing claims in J6?

A: The following are the current FIs and carriers administering the program in J6 and the states that they serve:

- National Government Services (FI for Illinois and Wisconsin; RHHI for Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Michigan, Minnesota, Nevada, New Jersey, New York, Northern Mariana Islands, Oregon, Puerto Rico, U.S. Virgin Islands, Wisconsin, & Washington)

Q: How will staffing be affected as work moves from the current FIs and carriers to the J6 A/B MAC?

A: With the award and implementation of the new contract, the MAC for J6 will be performing the claims administration work that had been distributed among three contractors. Fewer staff will be required to perform the full scope of activities because of the consolidation of the contracts.
